TREATMENT

Left untreated, mental illness and addiction derail human potential and destroy families. Recovery is possible when people have access to evidence-based treatment. Thanks to thoughtful investors like you, people can heal the trauma that so often underlies addiction.

Together we are national leaders in providing pivotal, deeply integrated treatment – addressing both mental health and substance use disorders at the same time and on equal terms.

Last year you helped provide healing for 995 people through our various treatment programs.

“HELPED ME LOVE MYSELF,
AND UNDERSTAND THAT I DESERVE TO BE HAPPY.”

REHABILITATION

By investing in CenterPointe, you tackle mental health and addiction issues while connecting people with resources to meet basic needs.

Thanks to enlightened investors like you, people struggling with mental health and addiction have one-on-one support with someone who treats them with dignity and respect and can help them as often as they need it – including multiple times daily if necessary.

Your investment in rehabilitative programs helps people learn to manage mental health symptoms, gain independent living skills, navigate sober living, and overcome the barriers of serious poverty.

HOUSING

It's hard to imagine how someone can recover from mental illness and addiction without a home to call their own. Thanks to generous investors like you, housing is a building block of recovery for homeless veterans.

With your help there are options other than the streets. You are supporting essential Street Outreach, housing for the chronically homeless, housing and support for young adults 18–24, specialized housing for veterans and so much more.

With help from you and supportive landlords, we housed 373 people in apartments last year.

CRISIS RESPONSE

Crisis can happen to anyone. Thanks to terrific investors like you, when people are experiencing suicidal thoughts, substance use or mental health crisis they have someone to turn to.

CenterPointe Crisis Response is a free, confidential resource that youth, families and adults can access any time day or night by calling the hotline. Walk-in assistance is also available at 1000 S. 13th Street during business hours.

In the last year, your partnership helped build a community-wide coalition that put suicide prevention signs in every parking garage in Lincoln and on the University of Nebraska Campus.
