

LOOKING BACK:

Your Return on Investment

2014/2015

pivotal treatment for recovery

Have you ever had the flu or another major illness that leaves you feeling depleted to where you can hardly think or move around? Mental illness and addiction are far more serious and debilitating.

Did you know that depression is a leading cause of disability in the U.S. and around the world? And, it is a treatable disease. If we invest in the medication and therapy to treat depression, people get better. It is true for substance addiction as well.

Your support of CenterPointe can be thought of in many ways: a gift, a donation, or a contribution, but have you ever thought of it as an investment?

If you have ever witnessed someone working to get well from the diseases of mental illness and addiction, you know that you are investing in a life. You are making an investment that helps someone who is ill to turn their life around — and your investment has an exponential return.

These illnesses are better understood by science to be powerful and challenging to overcome, so a fix or a cure is not the answer. Seven days, 14, 21, or 30 is not the magic pill that makes everything better, but it is a start. Your investment helps people begin a healing process that brings them back to their full capacity to live, love, contribute and add to the community.

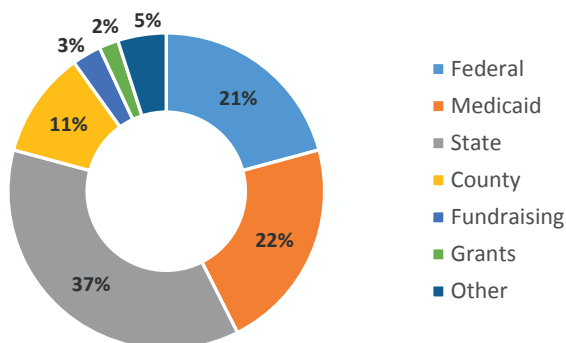

Please read through this report to see how your investment is creating returns. Because when you invest in a member of our community, in your friend, or in your loved one — the returns are impressive!

Self-reported Gender

PIVOTAL TREATMENT

Your investment helps ensure there are multiple treatment options to help meet each person's unique needs.

An overwhelming majority of people in services have experienced significant trauma: abuse or neglect as a child, rape or incest, witnessing or being the victim of violence, and more. Medical research has proven that trauma can affect the brain long-term.

Caring, non-judgmental treatment - available without a wait - can make a **big** difference.

Your investment provides hope for healing.

TESTIMONIALS

"My therapist has fresh new ideas that I use automatically now!"

"Since I've been here, I have learned to change in so many ways... I can now look at the positive future I can have."

REHABILITATION

Your investment helps people gain control of their lives through specialized rehabilitation programs.

For many people in services, skills and behaviors can be dulled, lost, or never learned as a result of illness. Living independently, managing your health, planning leisure time – these can feel overwhelming. In addition, extreme poverty creates obstacles to wellness.

Rehabilitation helps people gain confidence, transition back into the community, and access basic needs resources. Your investment provides tools for the recovery journey.

TESTIMONIALS

“The staff do a good job at teaching new things. I really enjoy cooking skills group!”

“I am treated with dignity and respect by the staff.”

HOUSING

Your investment helps provide the security of a home so that people in services can begin to focus on their mental health or substance use issues.

Research by the leading minds in psychology tell us that there are certain basic needs every human must meet in order to experience wellness and growth. Without stable shelter how can anyone even begin to address her/his illness? You should know, more than 50% of people coming into services are experiencing homelessness.

We believe everyone has the capacity for recovery. Your investment provides a foundation for turning a life around.

TESTIMONIALS

"I was living outside in a camp..."

*"This is the nicest apartment.
I never expected to have this."*

CRISIS SERVICES

CRISIS RESPONSE

Your investment provides a lifeline when the struggle is overwhelming.

Crisis can happen to anyone. Tragically, one person dies by suicide every two days in Nebraska — for every death there are typically 25 attempts. When a community member is struggling with suicidal thoughts or other mental health/substance use crisis – CenterPointe Crisis Response is there 24/7 – 365. Your investment saves lives.

24-hour hotline – 402.475.6695 Free, walk in crisis services

Walk-in crisis services at 1000 S 13th St responded to 196 people in the most current reporting year.

Assessment support for Lincoln Police Department

Assessment support to Lincoln Police Department is provided both in the field and over the phone. Crisis Therapists engaged in 32 situations with LPD last year.

LOOKING AT TODAY AND LOOKING AHEAD

Thanks to you, we are on-track to serve a record number of people this fiscal year. More than 650 people are accessing pivotal programs and services right now, as you read this. Thank you!

Every day people call or walk-in to get help. Your continuing investment will ensure they can get the care they need. Enclosed is a return card and envelope if you want to make an investment right away.

Mental illness and addiction are chronic diseases. Your investment for the future is more important than ever. The Full Circle Society recognizes donors who've included a gift in their will or other estate plans to ensure pivotal treatment is always available.

“I think everyone is impacted by these issues. Whether it's someone in your family, a close friend, colleague, or the neighbors next door...I think it's important to plan. I hope more people will make a designation for CenterPointe in their will. We must ensure these vital services are available for those who come after us.”
